

FAMILIES

Diving can bring families closer together as they share the wonders that the oceans have to offer. Private small groups has been what has set us apart from other dive companies. With your family, we can custom assemble the dive vacation of your dreams.

"THE FINEST PRIVATE SCUBA SERVICES IN PHUKET"

Imagine floating weightless in warm and crystal blue water. For some, the experience of scuba diving can change your life, opening up an endless array of places to visit and explore, while enjoying all the beauty that is found in our worlds oceans.

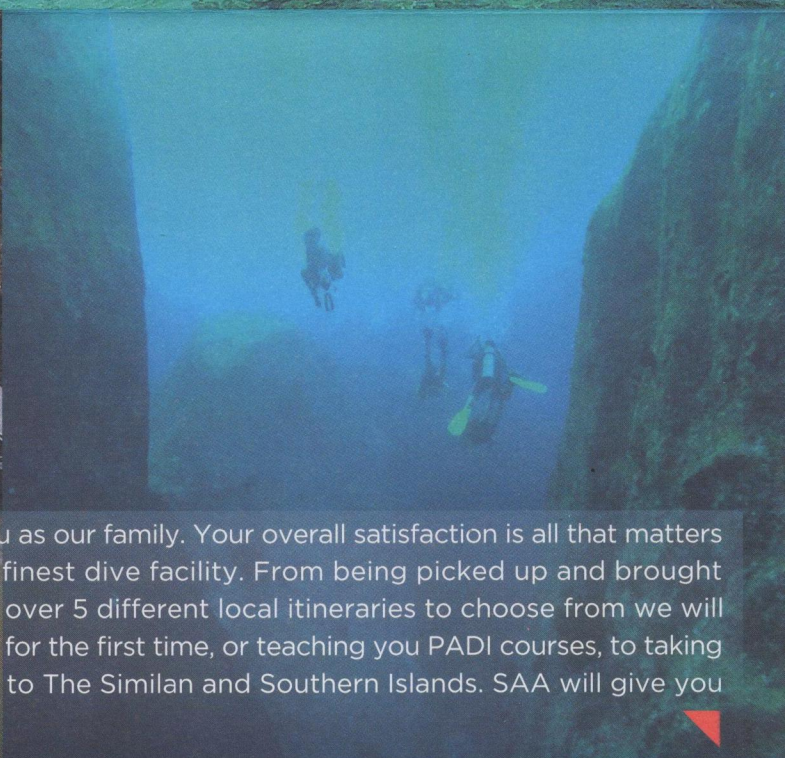

Siam Aquatic Adventures will give you an unforgettable day, which will give your holiday a special memory off our beautiful island. Over 40 years of diving has enabled our company to take you on a safe and awesome journey that the whole family can enjoy.

We connect with you like no other scuba service in Phuket.

FRIENDS

Whether you come alone or with friends we will treat you as our family. Your overall satisfaction is all that matters to SAA. This is how we have grown to be the islands finest dive facility. From being picked up and brought back to your hotel we take care of all the details. With over 5 different local itineraries to choose from we will deliver the day that you desire. From trying scuba diving for the first time, or teaching you PADI courses, to taking you on certified fun dives, 3-5 day Live Aboard Safaris to The Similan and Southern Islands. SAA will give you five star service.

CHILDREN

No dive company in the world has more experience in teaching and taking young adults scuba diving. In 1997, I started teaching teenagers in school groups and still have a returning group of schools coming back yearly to dive with SAA. We have an all-star Instructor staff that is fluent in 8 languages, so you will be comfortable learning and going diving with us.
